Homewood Forest Preserve Orienteering Course

First Class Course

This course is designed for Scouts BSA to fulfill requirement 4A in the First Class Requirements as of 2019.

4A. Using a map and compass, complete an orienteering course that covers at least one mile and requires measuring the height and/or width of designated items (tree, tower, canyon, ditch, etc.).

The course in the preserve is about 1 mile from post 1 through 10. When finished, hike west on the road to the high school parking lot to the Homewood High School sign. There are two power poles next to the sign and light poles in the lot. Measure one of those poles using the skills taught in the Scouts BSA handbook. The course and hike to the school is over 1 mile.

This course was created by Aidan Wright for his Eagle Project in 2019.
Aidan is a member of Troop 97 at Trinity United Methodist Church.
